

Volkswagen Multivan

The Volkswagen Multivan Self-Drive Transfer Conversion is the perfect combination of access and driving pleasure. This modification suits the active wheelchair user that is able to transfer independently. The Volkswagen Multivan is not only comfortable, reliable and convenient it also feels like a family sedan to drive. Built in Germany with VW endorsed high quality German made products from PARAVAN and AMF Bruns you know your getting the best of the best.

### Benefits of this Conversion:

Wheelchair storage is a breeze, no need to take apart and lift your wheelchair, stow it on the roof or boot. Simply access the vehicle from your wheelchair and transfer across to the fully retractable drivers seat. Your wheelchair stays warm and dry, minimal stress on your shoulders and you still drive from the factory drivers seat. Further to that the vehicle retains its 3rd row of seats so there is still room for the the family and your wheelchair. We have also developed an extensive list of optional extras, customise the vehicle to suit your lifestyle.

### Features:

-  The ultra slim cassette hoist stores neatly under the vehicle, has class leading clearance and does not impede access inside vehicle.
-  PARAVAN Electric Seatbase is fully retractable, rotates 180 degrees and also has height adjustment.
-  The seatbase features Telescopic rails that free up space inside the vehicle Exclusive to the Paravan seatbase only
-  This Seatbase is also the only product on the market to feature a manual emergency release. A must in our opinion.
-  Features a fully flush premium hard wearing vinyl floor of your choice
-  The Factory VW seat is used retaining all safety features including side-impact airbags
-  Wheelchair Occupant Restraint system can be fitted for passengers that want to travel in their wheelchair.

## Hoist and Floor Dimensions

Hoist Width	800mm
Height of Door Opening	1250mm
Height Inside Vehicle	1300mm
Lifting Capacity	300Kg
