

## Wheelchair Accessible Vehicle

Volkswagen Caddy Maxi pictured

The VOLKSWAGEN CADDYs combine European luxury, performance and design, with outstanding practicality and use of space.

Our specialist design team at PME-SV build these vehicles with the user in mind and tailor them to suit your requirements. All at a reasonable price.

- Surprisingly spacious; small in size but featuring superior internal height and use of interior space, these cars are versatile and practical.
- Eye-catching European styling and the power and reliability of a VW diesel.
- Access the vehicle through the user-friendly, easy-lift ramp system.
- The ramp and lowered channelled floor system are set at a minimal gradient for ease of wheelchair use.
- 4 point wheelchair anchorage system and lap-sash belt for safety and security.
- Corrosion-resistant coated full steel construction for strength and longevity.
- Quality guaranteed with a PME 3 year warranty.
- A perfect finish; PME-SV CADDY conversions are capped off with features that make the whole conversion appear factory. These include marine grade carpet, anti skid ramp covering, space saver spare wheel and cover, and a courtesy storage compartment for your wheelchair restraints.
- For total luxury, look at our fully automated remote ramp and anchorage systems as well as our other optional extras.
- Plenty of headroom and clear vision out of windows and into the front for the wheelchair passenger.
- Reasonably priced to provide the best value for money
